Software Solution Validation Test Form
USE CASE – Rev.4.20250922

Case 1

- **Beneficiary Type:** Dependent
- **Transaction:** First Patient Encounter (FPE) Only
- **Patient Details:**
    - Sex: Female
    - Age: 0–60 months (infant/child)

Case 2

- **Beneficiary Type:** Member
- **Transaction:** First Patient Encounter (FPE) and Consultation
- **Patient Details:**
    - Sex: Male
- **Consultation Data Requirements:**
    - Capture **second tranche data** as defined in the Konsulta Data Dictionary.
    - With at least **one Diagnostic Exam Result**.
    - **No prescribed or dispensed medicine**.

Case 3

- **Beneficiary Type:** Member
- **Transaction:** First Patient Encounter (FPE) and Consultation
- **Patient Details:**
    - Sex: Female
- **Consultation Data Requirements:**
    - Submit **all Konsulta data elements** (both *required* and *optional* as defined in the data dictionary).
    - With **complete Diagnostic Examination Results**, except **Digital Rectal Exam**.
    - With **prescribed and dispensed medicines**, including:
        - **Either**: Non-Communicable Disease (NCD) medicines **or** Antibiotics
        - **And**: At least one **Other Drug/Medicine** encoded

  Note: All defined Konsulta data—both required and not required—must be submitted.

For F.3 Encrypted XML requirement. Konsulta XML must not be uploaded thru PhilHealth konsulta API, thus XMLs must be provided for the Stage 2 testing.
Note: Use the Konsulta XML Filename Convention (Annex C)

Case 4:
- Transaction: First Patient Encounter (FPE)

Case 5:
- Transaction: First Patient Encounter and Consultation

Submission Guidelines

To: Service Provider
Note: Kindly organize each test case into a separate folder before submission to the PRO.

Each folder must include the following:

1. **Encrypted XML**
2. **Decrypted/Raw XML**
3. **System-Generated eKAS (PDF format)**
4. **System-Generated ePress (PDF format)**
5. **Screenshots** of the following:
    - Data entry process up to submission to the PhilHealth Konsulta API
    - Returned transmittal number from the PhilHealth Konsulta API

Important Note:
- Upon successful completion of **Stage 1**, the PRO will endorse **five (5) cases** for **Stage 2 testing**.

To: PRO IT
For applications that have passed testing, please ensure the submission of the following accomplished and signed forms, together with the five (5) passed use cases:
1. Software Solution Validation Test Form (SSVTF)
2. Software Certification Endorsement Form (SCEF)
3. Software Certification Application Form (SCAF)
4. Software Certification Log
5. Non- Disclosure Agreement (NDA)
